

Environmental policy

Under its existing health, safety, environmental policy and handbook, Linear Control Systems Ltd is committed to continual improvement of its environmental performance. This will be achieved by setting clear environmental objectives and regularly monitoring of performance against the set objectives. This will be documented, implemented and maintained. Linear Control Systems Ltd will:

- Ensure that the environmental policy is understood, implemented and maintained at all levels within the Company and by others working on our behalf.
- Ensure that all members are aware of the potential environmental effects of the Company activities and also the environmental benefits of improved performance.
- Prevent pollution by providing appropriate environmental training for staff and operatives. Also ensure our subcontractors have received relevant training.
- Conserve and protect the environment by operating in a socially responsible manner.
- Comply with all existing environmental legislation and codes of practice, issued at European, national and local level.
- Minimise waste throughout the Company and deal only with reputable, registered waste carriers.
- Maintain energy efficiency in new buildings and services, and manage energy wisely throughout the Company.
- Work with suppliers, customers and contractors to promote environmental awareness and the need to work in an environmentally responsible manner.
