LINEAR CONTROLS QUALITY POLICY STATEMENT

Linear Controls is dedicated to supplying high quality services and products which meet the requirements of our customers and consistent with high safety and training standards.

Implementation of Quality starts with the Managing Director and each member of staff shall have clear responsibilities for maintaining and improving Quality.

The Senior Management Group shall review Quality performance regularly and ensure that resources and management effort are committed to achieving the following Quality objectives.

- All employees are trained to professional standards that will deliver a Quality service
- All employees are aware of quality performance through regular briefings and feedback
- A Quality plan shall be developed for each new installation and “signed off” by the managing Director
- Products procured shall be from accredited quality sources and subject to testing and inspection before installation on a Customer site
- Quality systems shall be subject to regular monitoring and review by the Senior Management Group

Linear Controls welcomes and encourages Customer feedback to promote continual improvement. Proactively a member of the Senior Management Group will review Quality and performance with each Customer on an annual basis.
